

HY3200SEi - 4KVA Hyundai

A. GENERAL FEATURES

• MODEL	HY3200SEi	• POWER OUTPUT	3.2kW/ 4kVA
• TYPE	Portable	• FRAME	

DESCRIPTION

The HY3200SEi is ideal for caravans and motorhomes as it allows you to take the modern luxuries from home with you wherever you go.

The HY3200SEi, with integrated carry handle is easily stored in the back of a van car, or garage. The control panel features two 240v sockets for use with any appliance which uses a standard 3-pin 15A mains plug, as well as a 12v DC battery charging outlet, so it's ideal for a variety of uses.

Already an economical generator, the HY3200SEi also has the added benefit of an "ECO" mode which, when selected, will lower the engine revs to match the load being applied, which in turn increases the fuel economy, lowers the noise produced and extends the lifespan of the engine.

B. GENERAL RATING

VOLTAGE	POWER		NOISE LEVEL	RUN TIME	START
	Max Output @ 0.8pf		dBA @7m see *1		
	kw	kva	dBA		
240	3.2	4	54	7 Hours	Recoil, Electric & wireless remote start

*1 At 1/4 Load at 7m from control panel side
